

Intermediate Level Audio Level Indicator Nvis 06D

The Audio Level Indicator consists of 10 LEDs (Light Emitting Diode) to indicate the level of an input signal. The glow of LEDs will depend upon the signal level fed to the input. If the signal is small, only LED D1 will glow and if the signal level getting higher then you'll see the light will move through LED D2, D3, D4 and so on.

Features

- Easy to operate.
- Visualization of output corresponding to audio input.
- Descriptive operating manual with procedure.
- Circuit diagram with PCB Layout for better understanding.

Technical Specifications

DC Power Supply : 9V battery

IC : LM324N, LM3914

Designed & Manufactured in India by

Nvis Technologies Pvt. Ltd.

141-A, Electronic Complex, Pardesipura, Indore-452010, India.
