

Water Level Indicator

Nvis 01D

The purpose of the Simple Water Level Indicator is to caution a person that a water tank has been filled up to a particular level. The system is capable of indicating the water level in two ways visual (by the Means of an LED) and audible (by the means of a sound generated by a buzzer).

Features

- Low Cost and portable.
- Audible and Visible indicator.
- Small sized PCB.
- Simple to perform
- Operating manual with procedure.

Technical Specifications

DC Power Supply	:	9V battery
Buzzer	:	5V DC
Operating Voltage	:	5V DC
Diode	:	IN 4007, 1600V
Transistor	:	BC 547B, BC 107B
